RE: Investigation of Kentucky Utilities Company's and Louisville Gas and Electric Company's Respective Need for and Cost of Multiphase Landfills at the Trimble County and Ghent Generating Stations
Case No. 2015-00194

Dear Mr. DeRouen:

I am writing to offer a few comments on the June 24, 2015 Intra-Agency Memorandum filed in the record in this case regarding the informal conference held on June 19, 2015.

The second paragraph of the informal conference memorandum states that LG&E's representatives "noted ... the Companies' plan to issue a request for quotes to construct the Trimble County landfill" The request for quotes to be issued in July of this year is for the CCR treatment facility portion of Phase I of the landfill project at the Trimble County generating station.

Additionally, in the third paragraph, ninth line, the phrase "mine would not qualify as beneficial reuse under the new CCR Rule," should be corrected to state: "mine would not qualify as beneficial use under the new CCR Rule." The CRR Rule uses the term "beneficial use" and not "reuse." Finally, the reference to the Evaluation of Trimble County Coal Combustion Residual Storage Options being "prepared by its Generation and Analysis group" should be corrected to state "prepared by its Generation Planning and Analysis group."
